December 20, 2018

Dear Parents and/or Guardians,

Harmony School of Innovation - Sugar Land will offer all 10th, 11th, and 12th grade students the opportunity to take the Armed Services Vocational Aptitude Battery Career Exploration Program (ASVAB CEP) exam. This exceptional program and aptitude test assesses a student's ability to learn new skills and is a predictor of success in training and education programs regardless of post-secondary intention. It enables students to explore careers in the context of their skills and interests, understand their options, and to plan for the path of their choice. Additionally, ASVAB CEP results provide students a current snapshot of their skill levels so they may improve performance on high-stakes standardized tests.

Although the ASVAB CEP is sponsored by the Department of Defense, it is not just about the military; it's about options. ASVAB CEP offers an equally unique opportunity to those interested in pursuing education, work, training, and/or certification because it identifies skill strengths, assesses academic ability, and predicts success in a wide variety of careers in addition to military occupations.

Students in grades 10 through 12 are highly encouraged to take the ASVAB CEP. It will be administered on campus on March 5, 2019. The exam will last approximately 3 hours. The school will not release the scores from this exam to any military recruiter nor will participants have any obligation to join the military. After students receive their scores, they will gain access to exclusive career exploration tools including attending a career seminar on March 21. They can then independently explore any careers that interest them.

More information will be made available to students and parents in January. Additionally, please do not hesitate to contact your child's assigned counselor at any time with questions or concerns that you may have. You can also find valuable resources regarding the ASVAB Career Exploration Program on their website: <https://www.asvabprogram.com>.

Sincerely,

Harmony School of Innovation - Sugar Land
